

## Reflection After Each Companion Gathering

*Considering these reflection questions after your group gathers is not a requirement, nor do you need to turn this reflection form in to anyone. However, it may be helpful to reflect honestly about what worked and what might not have worked, so that your group may grow each time you meet. So be honest as you consider these questions...*

When did you meet this month (time of day, date):

Who hosted this month:

Was anyone missing at your gathering? Was their absence something your group needs to respond to? *(Were they ill – should you send a card, etc.)*

What activity did you do and how did everyone engage in the activity?

What was your favorite part about this month's gathering?

What was your least favorite part?

Did your group encounter any problems this month with coordinating, with activities, or with your time together?

What did you notice about your time together this month?

How was God present? Where do you see God at work in your group this month?

Did you do anything together as a Companion group this month outside your regular gathering?
